AVIOR COMPUTING SHIPS VERSION 1.0 OF BENCHMARK COMPLIANCE SOFTWARE

NASHUA, NH, JANUARY 15, 2007 – Avior Computing, Inc., announced today that it has begun shipments of Avior BenchMark, a revolutionary compliance assessment software product.

Avior expects that customers in the insurance, finance, and IT services industries will be among the first customers for BenchMark. Avior BenchMark is a secure compliance process management tool that standardizes the collection of compliance and other assessment data from diverse sources such as suppliers, divisions and departments. BenchMark automates what is commonly a manual, spreadsheet-based procedure at many companies. It uses advanced analytics to structure, monitor and document compliance and other business processes. Avior supplies BenchMark with industry and regulation-specific Knowledge Modules that simplify the process of assessing compliance.

“Avior BenchMark is a compliance process management solution that addresses one of the most painful aspects of compliance, assessing compliance status” said Steve McCalmont, Avior Computing CEO. “Using the BenchMark solution, organizations can simplify the assessment process, and reduce the costs associated with manual compliance assessment tools.”

About Avior Computing (www.aviorcomputing.com)

Founded in 2003 by software and networking industry veterans, Avior Computing is a leading innovator in compliance management solutions. Avior BenchMark automates the process of assessing and managing compliance for applications

such as vendor risk and information privacy. Avior BenchMark replaces costly and cumbersome manual assessments involving spreadsheets and word documents with a streamlined and automated process, enabling better risk decision-making, and significantly reducing the pain and cost of manual assessment activities.
